ABOUT

I am a passionate and dedicated computer science student with a strong foundation in software development, algorithms, and data structures. With hands-on experience in various programming languages including Python, JavaScript, & C++, I have developed a keen interest in Web development & Database Management.

I am a quick learner with strong analytical skills and a knack for problem-solving. I thrive in collaborative environments and enjoy working on projects that challenge me to think creatively and push the boundaries of technology. I am eager to leverage my skills and knowledge to contribute to innovative projects and grow as a professional in the tech industry.

WORK EXPERIENCE

CodSoft

August(2023) - September(2023)

During my internship at CodSoft from August to September 2023, I experienced significant personal and professional development. Engaging in cutting-edge projects honed my skills and cultivated creative problem-solving. CodSoft's collaborative culture fostered innovation, encouraging exploration of new frontiers..

PROJECTS

Foody Web

As a key contributor to the project, I played a pivotal role in developing and implementing the user interface and interactive features for the food website, ensuring an engaging and seamless experience for users.

Features like Speciality , Popular, Gallery, etc.

Todo-App

A simple Todo app built with JavaScript, allows users to create, manage, and organize tasks efficiently. It features an intuitive interface for adding, editing, and deleting tasks, along with options to mark tasks as complete. The app provides a basic yet effective way to stay on top of daily activities and responsibilities.
